September Meeting

Presidents Message

Dean Raymond brought the meeting to order and stated he was pleased with the participation from the membership over the last month. New members and guest were welcomed. The Florin mall show was a success and Dean thanked all the volunteers. Dean reminded the members that our Open Field Day was only 9 days away and that a large turn out from the public was expected. Dates to remember are the 8th for painting, the 10th for clean up and of course the 11th is the event.

Secretary's Report

Mike reported that there a total of 187 current paid members. He is also going to compile a member's roster for distribution.

Treasurer's Report

Dick reported on the account totals. Details on the account balances can be obtained by attending a meeting or speaking personally with Dick.

Old Business: The Florin mall show participants were thanked and given a raffle ticket. The comment for next year was that the club should look for a new mall because our show was more popular than the stores. A unanimous vote was held to award a raffle ticket to all volunteers for club events.

New Business: A proposed fee increase for dues was brought up for discussion. The increase would be used in the event that the club had to relocate the flying site. A vote was held the increase was passed unanimously. The new yearly dues are now \$40 and members can receive a \$5 discount if paid by December 31st. With school now in session the subject of picking one for the Adopt a School program was discussed. Rex stated that an alternate is to just buy a subscription to the AMA magazine. Dean volunteered to pick the school for the program. Volunteers for the Capitol City Air Show in May of 2005 were requested to sign up. A request for a person to cook at the Open Field day was made and no one volunteered. A suggestion to organize a membership committee was made, contact Dick Lydick for information. Dean informed the group that he is trying to secure the ability for the club to have float fly's at the CSUS aquatic center. October's meeting will be on the 7th and nominations for club officers will take place.

MASM Florin Mall Show

On Saturday the 28th members flew into the Florin Mall to show off their airplanes to the public. The group of flyers started out with twelve tables which filled up fast. Three more tables were secured to accommodate all who showed up. Dean Raymond and Mark Sherrill brought a total of three laptops with Real Flight installed; the public at large seemed to enjoy the simulator program.

With Dean's tutelage this young lady came back at least three times to master landing the plane.

Rex took time out of his busy day to learn how to fly.

AMA and MASM literature was available for the visitors. Flyers for our Open House event on September the 11th were passed out. All in all it was a pretty successful day. Hopefully new friends and members were made in the Florin Mall.

The usual suspects gather while the tables fill up.

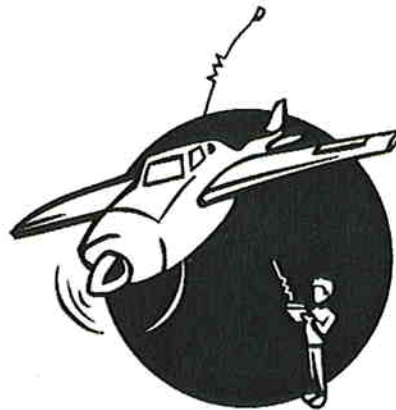

Fly Model Airplanes for FREE at Mather Aerospace Modelers Open Field Day

The public is invited to try their hand at Radio Control Airplane Flight during the Mather Aerospace Modelers Club Open Field Day on Saturday, September 11, 2004.

Take-off time is 10 am, and the flying field is located in Mather, CA, near the intersection of Eagle's Nest Road and Kiefer Boulevard. Beware of the very bumpy road, and approach from the South.

Members of the R/C Modelers club will hand over the controls of radio control airplanes, and qualified instructors will be on hand to help the inexperienced, so no need to worry if you've never piloted a model plane before.

There will be free flight model & paper planes for children 12 and under. Everyone is invited to enter a drawing for prizes, including a radio control airplane! There will also be other fun activities.

Join us for a fun filled day!
September 11, 2004

Take-off time is 10:00 a.m., and we will be flying until mid afternoon. There is no charge for this event! For directions and more information visit www.takeoff.to/mather or contact Dean Raymond at (916) 363-3326.

Safety

It was requested that members slow down when entering the parking area at the field. This will help reduce the amount of dust that is generated from excessive speed. Also noted was the severe dry conditions at the site and that the fire danger was HIGH.

Show and Tell

George presented his scratch built Wright flyer which he created from photographs

Prize Winners

Richard brought his Mig gas powered ducted fan jet.

Dean shared his Alpha foamy Corsair model that is capable of 50-60 mph.

Dave won the slow stick, Mike took home the 3D and Bob scored the Shocky. Dean and Dave received ball drivers for their tool boxes.

MATHER AEROSPACE MODELERS, Inc.

MEMBERSHIP RENEWAL APPLICATION

AMA# _____ Phone Number _____

Name: _____ Family Members: _____

Address: _____ City: _____ Zip: _____

Email Address: _____ Phone # _____
