July 2005

Volume 1, Issue 7

July Meeting

Presidents Message

Dean Raymond brought the meeting to order at the flying site. Dean asked the crowd if there were any new members or visitors, three new members were present. Dean expressed his joy in belonging to our club and being able to work together to ensure its success. He stated that the flying site committee will meet on the 26th of July at Bradshaw's Restaurant at 7:00 pm. Dean reminded everyone that the club T-shirts were available and will be sold for \$10 while supplies last.

Secretary's Report

Mike reported that there were 4 new members since the June meeting. The club has a total of 203 paid members for 2005.

Treasurer's Report

Dick reported the details on the prize purchases for the meeting. Account balances can be obtained by attending a meeting or speaking personally with Dick.

Safety: Our safety officer's first topic was hearing protection. Chuck informed us of his personal experience involving the high speed tuning of a pylon racing motor. Even though he was wearing a set of ear muffs he still suffered minor hearing loss. Chuck suggested that while one works closely with loud high performance engines that they double up on the hearing protection. Insert foam earplugs then cover your ears for the best possible protection. This was Chuck's lead in to his next subject, tuning in the pits. Prolonged tuning in the pits is not allowed. The two areas for this process is the flight line or designated area on the west side of the parking lot. Remember no matter which area you tune in clean up the oily mess that's left behind. Rex then brought up the recent article in the AMA magazine about frequency control and how important it is. Always store the transmitters in the impound area and use the frequency pins on the board. The pin should be clamped onto your antenna and your club membership card should be in its place on the board. Everyone's transmitter should display frequency on which it operates along with a red flag on the end of the antenna stating 72 MHz for air craft use only. If a member is unsure read rules #1 and 2 on the green sign in the pit area.

Treasurer	Field Marshall		Ed Sutter 361-8200
Dick Lydick 362-7492	Norm Poynter		Rex Williams Jr. 362-8988

Old Business: The mall show was held on June 11th at the Sunrise mall, there were 12 members that showed up with a total of 25 planes for display. RC Country donated a small electric helicopter for Dean to demonstrate to the onlookers. The club was located in the middle of the mall with walk ways on both sides of the display area.

New Members: Three new members were present, welcome John Stewart, Kurt Yeager and John Riggs.

New Business: Rex presented Dean with a plaque from the AMA which represents that our club has been a Gold Leader Club for the last five years. Rex also presented each member with a five year Leader Club patch. The plaque and the patches represent a lot of hard work from dedicated members.

On August the 14th we will have an Open House Fun Fly at our field; this will be hosted by Dave Sullivan. The club will provide the pilots with food and there will be a raffle. Any plane will do and any pilot can win. The idea here is to come out have fun and fly.

The Pile It trophy was awarded to Karl for his high speed plant.

Our Open Field Day will be in September again this year; a date will be set by the next meeting. Volunteers are needed for this event which will include ground school, sims training and buddy box flight instruction.

THANK YOU!

R/C Country The Hobby Shop

6011 Folsom Blvd., Sacramento, Ca. 95819
916-731-5868

The Mather Aerospace Modelers would like to thank Chet and Terry, owners of RC Country, for their continued dedicated support of our club. With your generous contributions and subsidies we have historically had successful raffles at our monthly meetings and events.
