September 2005

Volume 1, Issue 9

September Meeting

Presidents Message

Dean Raymond brought the meeting to order at the flying site. Dean asked the crowd if there were any new members or visitors, no new members or visitors were present. Dean stated that the flying site committee was on track and coordination among the committee members was working well. Dean also reminded the membership not take individual action on a flying site that this is why the flying site committee was organized.

Secretary's Report

Mike reported that there were 7 new members since the August meeting. The club has a total of 210 paid members for 2005.

Treasurer's Report

Account balances can be obtained by attending a meeting or speaking personally with Dick.

Safety: The membership decided to let Red Baron members fly at the field once theirs is closed. So as a club we need to be more vigilant about practicing the core set of safety rules that hangs posted at the field. This will set an example of the level of safety we will expect from our visitors.

Old Business: Open Field Day will be Sunday September 18th, please contact Dean to volunteer. Last months 1st Annual Al "Pete" Pedersen Fun Fly was a big success with Leonard Walker taking first place in the competition and taking home the \$30.00 gift certificate. Members at the meeting agreed that the club needs to put these kinds of events on more often.

Fly Model Airplanes for FREE at Mather Aerospace Modelers

The public is invited to try their hand at Radio Control Airplane Flight during the Mather Aerospace Modelers Club Open Field Day on Saturday September 18, 2005.

Take-off time is 10 am, and the flying field is located in Mather, CA, near the intersection of Eagle's Nest Road and Kiefer Boulevard. Beware of the very bumpy road, and approach from the South.

Members of the R/C Modelers club will hand over the controls of radio control airplanes, and qualified instructors will be on hand to help the inexperienced, so no need to worry if you've never piloted a model plane before.

There will be free flight model & paper planes for children 12 and under. Everyone is invited to enter a drawing for prizes, including a radio control airplane! There will also be other fun activities.

Join us for a fun filled day!
September 18, 2005

Take-off time is 10:00 a.m. and we will be flying until mid afternoon. There is no charge for this event!

For directions and more information visit www.takeoff.to/mather or contact Dean Raymond at (916) 363-3326.

New Business:

Dean reminded the group in attendance Thursday night that the legal allowed flying altitude at our field is 400 feet. Since our field is within 3 miles of the Mather airport it is important to keep track of your planes height. The subject of placing new gravel in the parking area was brought up and asking the helicopter club to help with the expense. The next item was installing more telephone poles to barricade the runway from the morons who insist on burning donuts on the airstrip. Both items passed with a unanimous vote. The closure of the Red Baron's field was discussed and a vote was taken to allow their members access to use our field until the Red Barons new field is ready. The motion was amended to revisit the invitation if our guest got out of hand and did not follow our safety rules. The amended version passed with a unanimous vote. The membership was notified that on September 30th through October the 2nd the Helicopter Club will be holding their annual helicopter fun fly so there will be no airplane access at the field. The last item presented was a reminder that at next months meeting new nominations for club officers will take place.

New Members:

There were no new members present at the meeting.

Drawing Winners:

There was no drawing held this month due to the lack of prizes.

Pile It Award:

There was no nomination made this month for a recipient.

THANK YOU!

6011 Folsom Blvd., Sacramento, Ca. 95819
916-731-5868

The Mather Aerospace Modelers would like to thank Chet and Terry, owners of RC Country, for their continued dedicated support of our club. With your generous contributions and subsidies we have historically had successful raffles at our monthly meetings and events.

Show and Tell:

Bob M. presented his Multiplex electric glider

Hank brought an Ugly Stik 60

Bob F. exhibited his Axi powered Butterfly

Mark showed us his version of Frankenstein
