President Opens April, 07 meeting

On Thursday, April, 05, 2007 at 7:32 p.m. the meeting was opened for the purpose of doing business. It was started with the introduction of new members and visiting guests. The Guests were John Hulley and Lee Busolo They were visiting from the Red Barons club and came with the thanks for all you Mather Members for being open armed in their time without a sight. They also have extended the same invitation to you for the next year of fling at their new sight at the Sleep Train Ampatheather. It is free to all Mather members you will be required to have a AMA card and sign

the rules form. If the gate is locked you can call ahead for one of the board members to meet you there.

Victor extended thanks to Stan Hart and his Sons For the new tables and wind sock that were given to our club. Thank you Stan and all that were involved we are grateful.

Victor has secured the flying sight with a lease to the Mather Aerospace modelers as the property users.

Also brought up were the extension of the pit area with Petra mat and putting a con-

tainer on sight for fire extinguishers and first aid box as the County requires these Items be on site.

Victor at clean up day

New members listing brings Mather to 181

The new members are still coming in as the club grows we need to remind ourselves to extend our hands in friendship.

The New Members This Month.

Bill Fitajerald , Bill is a

modeler that had taken a 15 year break and has chosen our club to peruse his flying again.

Randy Stewart is one of our new flyers who has visited us on prior occasions and has liked what he saw and has decided to

join.

Last is George He has a few planes in his hanger and now would like to fly them .lets welcome them and help them grow in the sport.

Up coming events

Remember the up coming events we have scheduled this year we need all your support.

The April work day thank you to all that attended this time we rented a bulldozer and cleaned up the trash area at the end of the street and we ask if you see someone dumping there make it your job to say no to them you can make the difference.

Dave Teaching the plane to sit and stay Please let Rex

June 2&3 we are invited to Red Barrens flying site for their open house Bring your AMA.

June 9&10 is the Mather Blue Angels show our site will be closed this weekend as our area is a fly zone for them help is needed for the show and you can volunteer we are also going to see if we can have a booth to display planes so if interested polish then up.

July 21 Model show and display at Sunrise Mall you will be able to inter with planes early and we would like people to stay to answer questions that may arise

know your interest.

August 4th is the clubs open house we are needing easy up canopies and generators if you have them and can loan them for the day we need them. Also from 9:00 until 2:00 we need members to fill in for the events and the cooking of the food so if you can help please contact Bud.

Safety for all “with” a touch of kindness

The safety issue at hand is not a safety on at all not to say don't fly safe we all need to do that , But this is rather a softer plea for , respect, kindness, sharing of time and getting along. With all the styles incorporated into our club we have come into a unique problem 3-D does not mix with High Speed, Beginners do not mix with any of them and sport flyers want their turn. WOW what a

great thing to have! But what do we do? Take turns and be respectful! Look at the people that are there and remember 4 boxes is 4 flyers of the same type of flying style, ability. If you see a couple sport planes out and that is your cup of tea go out and fly.

There is only so many hours in a day and all have to share it without conflict. kindness is the answer

with respect for ALL FLYING MEMBERS.

FLY FOR FUN AND HAVE FUN FLYING

**“IT'S NOT MY JOB TO GIVE TIME FOR OTHERS TO FLY “
(SMALL CLUB THOUGHT) IF YOU WANT TIME GIVE TIME**

New Products

We have a couple of new items one is the new and GREAT motor breakin stand designed and built by Stan Hart and the Gang they are at RC Country and are very well built if you are looking for one check it out you can not go wrong with one.

The Next is Rex is taking orders for

the Mather aerospace modelers jackets if you are interested He will not only put you on the list but will model one for you

“NEW” Motor breakin stand

DOWN FOR THE COUNT

The past couple of months has been a hard one on the club members as we all have heard Pete Blum lost two planes at the Fresno meet and then at home Stan lost his cub at the hands of his son Joe, well Joe not having the best of luck this week had a hard landing in the dry pond and hand some damage to the Herman rocket fixable but still out for a time and early that same day a big stick went in along with Dean losing one of his planes. Michele had a hard landing with a dead stick at the hands of full throttle Carl But the heart breaker of the month has to be the Crash of Dave's 50% in Las Vegas in the hands of another. Heads hang and harts feel

for those losses but as Dave says you can not make omelets without breaking a few eggs. Sorry everyone

To Pete's plane, Rest In Peace

Secretary Report

Mike reported there were 181 new members and some were still owing some of their full payment. For those that are still owing please get caught up as soon as possible . Mike still has cards coming to all the new members it is only part of what Mike does for the club so

be patient and he will get the cards to you . Also if you do attend the meetings he does bring the cards there from time to time so you are able to pick them up there if you attend.

**IF YOU ATTEND
THEY
WILL COME**

Field Rules

All those who fly know there are rules we use daily to remain safe , the rules are there for all to be used not just the ones you wish to use for that time and

RULES INCLUDE SAFETY

day. The boxes are to be used when you are flying not to sit on but to stop you from

being hit by planes on the ground Even Dave was seen standing in the box it was tough but even Dave agrees they are there for the safety of all so brush up on the rules and read them again

DID YOU NOTICE

1. The new petra mat.
 2. The new graded road.
 3. The new fence .
 4. The trash pile is ready for pick up by the County.
 5. The metal container for storage.
 6. The mowed lawn and the sprayed weeds.
 7. The new tables.
 8. The New wind sock.
 9. The metal table for motor break in by the pole.
 10. The heli area cut and mowed?
- All the are done by the same peo-

ple time after time we need to all be involved with the club and the work not just the play.

Please remember we will be having a open house in August we will need a clean up then too. But if you see trash pick it up don't just drive by it ,it is our area we must keep it clean to keep it.

TO ALL THAT DO THE WORK THIS **BUD**
IS FOR YOU
