

Mather RC Quarterly Newsletter

Jan, Feb, March Edition

1. We are playing some quick catch up on the recent news from the club. Given the January weather, most of us took up kayaking instead of RC planes. The only thing good about cold, wet and rainy is that we get water for the rest of the year and there is way too much time for building. As a result about the only thing that happened in January is the club meeting. However February brought sunshine and mild weather so everyone hit the field. There was an impromptu BBQ on Saturday February 9th that was enjoyed by all.

Randy's gourmet cooking club.

Everyone enjoyed Randy's cooking.

As a side note this was headed up by Dave, Randy and Nick. The menu included some outstanding Polish (genuine) sausage, buns and chips. Contributions by the members covered the costs.

2. The field will be closed on Feb 16 & 17 (Sat & Sun) for a work party. We are “logging” the road to try and minimize the vandalism. Work starts at 11:00 am on Saturday.

3. The club fun fly T-28 races are set for Sunday, February 24th. It should be a lot of fun. Come and watch and enjoy the airborne demo derby.

Something new and different. Dave Sullivan helping with a test flight on a new bird. Might be a QuiQue but not 100% sure.

Duane's CompArf the cruises along a warp 7. Makes great smoke!

Editor's comments:

My newsletters are meant to be timely, fast and to the point. Your input is always appreciated but any bellyaching about spelling, grammar, punctuation or content will be given the attention it deserves. Let's just get it done and then go fly.
