

## Mather Aerospace Modelers

January 1, 2010

The January 1 get together at the field is now history. The weather was marginal but the event was still as success. We had a break in the rain until 1:00 which allowed everyone to get in a few flights and enjoy ALL of the chili.

Our gourmet cooks were:

Linda & George Faulkner  
Stef & Nick Graham  
Greg Weissenfluh  
Frank Carron  
Bill Fitzgerald

Frank won the highly coveted 1<sup>st</sup> place award.

We also had donations that included corn bread, chocolate chip cookies and brownies. The food was excellent and everyone thoroughly enjoyed themselves. The rain returned at 1:00 and several folks headed home. It cleared up by 2:00 and the flying resumed.

If you didn't join us you missed a good time.

Many thanks to Duane C for the photos.

George working on a plane and this Linda making sure that he does a good job

A lot of discussion and eating went on throughout the day.

Some of the guys actually flew a plane.

Ed worked very hard on his new chocolate chip and chili diet plan.

Stef (Nick's team mgr) cooked up a batch of chili and everyone enjoyed it.

Romeo and friends discuss which bucket of chili to attack first. Greg cooked up a mean batch of chili.

Romeo and Jim continue to discuss the chili. The rain started at 1:00 but flying was able to resume at 2:00.

More shots of folks flying and talking. Both were in ample supply.

Victor providing mgmt insight to Bill and a shot of Greg at the chili bar.
